WHERE TO SPEND THE SUMMER.

If Undecided, Perhaps this will Help You.

Where to go, what to do, how to do it, and the expense involved—questions agitating so many households contemporaneously with the advent of summer are all answered satisfactorily in the pages of the Little, one volume entitled "Midsummer in the North," published by the Passenger Department of the New York Central & Hudson River Railroad.

This book is profusely illustrated, contains several maps, and the information is presented in a concise, yet readable manner. It is an extensive list of summer resorts, and is a valuable guide to the traveler. It is available for sale at all bookstores, or by mail, at 10c per copy. For more information, call on the Passenger Department, or write to the Little, one volume entitled "Midsummer in the North," published by the Passenger Department of the New York Central & Hudson River Railroad.

J. A. SWERINGEN, the druggist, wishes to remind his patrons that it is a dangerous remedy to rely on for the cure of cholera, cholera, and diarrhoea. Every family should be provided with some reliable remedy for immediate use, whenever required during the summer months, and this remedy is unquestionably far superior to any other. It can always be depended upon, and is pleasant and safe to take. It is put up in 25 and 50 cent bottles.

A CONTRACT Muddle.

Trouble About Stopping the Citizens' Electric Cars.

The spirit of enterprising advertising on the part of a Decatur firm has brought about serious trouble which may have to be settled in the courts. Here is a contract made July 11, which explains itself: "This indenture made the 11th day of July, A. D. 1890, between the Citizens' Electric Railway Company and Bernard Bradley and Lewis Bradley, partners as Bradley Bros. Witnesseth, that said company, for the consideration hereinafter named, had this day agreed to sell and said second parties to stop still all cars going south, containing one or more passengers, which pass the store of said second parties on North Water street, in the city of Decatur, Illinois, at the crossing immediately in front of said store, during the hours said store is open for business, and cause either the motor car or conductor of such said cars to open the door of each said car and announce a loud and distinct voice the name of 'Bradley Bros.' 'Dry Goods Store.' This agreement to be in full force and effect from the 15th day of July, A. D. 1890, and to continue in full force and effect until the 15th day of July, A. D. 1891, in consideration thereof, said second parties hereby agreed to pay said company or its successors, the sum of one hundred and fifty dollars per year, payable in installments of seventy-five dollars at the end of each six months, the continuance of this agreement.

In witness whereof the parties hereto have, to this said contract, set their hands and seals, the day and year first aforesaid.

W. L. FERGUSON, Manager.
B. E. GREEN, Witness.

THE DAY AND YEAR FIRST AFORESAID.

BRADLEY BROS.

Since July 11 all cars coming south on the Citizens' line have been stopped on the crossing and the collector on the car has called out, "Bradley Bros' dry goods store!" in accordance with the terms of the contract, and probably this arrangement would have continued had not the East Main street merchants protested.

This East Main street merchants have done, and now the Citizens' street representative has informed Bradley Bros. that the company can no longer comply with the contract, and the calling out of the name of the store has been stopped.

At the meeting of the council Monday night an ordinance was presented assessing a fine of \$10 against any street car company that will stop a car in front of a business house and call out the name of a firm without having been requested to do so by a passenger on the car. The ordinance was referred.

The Bradley Bros. will not release the Citizens' company from their duly executed agreement and insist on the fulfillment of the contract.

It is said that the custom of stopping cars in front of business houses for advertising purposes is common in New York, Boston and Philadelphia. It is new here, and naturally rival firms object to its introduction.

Not Quite So Hot.

Some of our people, who thought they were roasting in the torrid month of June, hardly knew how cool it was in Decatur in comparison to what it was in another part of the country on the 14th century. A Bloomington antiquarian has rediscovered the following story:

In the years 1203 and 1204 the Rhine, Loire and Seine ran dry. The heat in several French provinces during the summer of 1203 was so great that the people were driven to that of a glass furnace. Meat could be cooked by merely cooking it to the sun. Not a soul dared venture out between noon and 4 p. m. In 1218 many shops had to close. The theatres were closed and the doctors fled. In 1272 the heat of the day was so great that a great number of people were killed. There was not sufficient air for the breath and people had to take refuge under the ground. In 1273 the heat became so unbearable that vegetables were burned under the trees. In 1274 the heat was so great that the people were driven to the forests and wood work in the dwelling houses cracked and split up; meat was bad in an hour.

War in Central America.

From the Chicago Evening Journal.

The rumors of impending war between Guatemala and San Salvador prove to have been well founded, open hostilities between the two Republics having commenced. The attempt of President Barrios, of Guatemala, to interfere in the government of the weaker Republic has been resented by the latter, and as a result 9,000 Salvadorans have taken the field and have already met the enemy on the frontier.

Since Geromino, Pon, the confidential agent of the Provisional Government of San Salvador, has just arrived at the city of Mexico for a conference with President Diaz. According to dispatches received by him from General Ezeiza, commander of the Salvador army, the Guatemalan forces under General Villavicencio advanced to the attack on July 17 near Elvira and were captured by the victors. "I have given orders," concludes Ezeiza, "to advance into Guatemala."

The men of San Salvador are hot blooded, and mass good fighters. They clearly love war. When they are with their neighbors there is generally some sort of a tumult going on at home to keep up the excitement. The recent fight in the palace at San Salvador, ended in the assassination of President Mendez, was undoubtedly precipitated by the present conflict. Should Gen. Ezeiza overcome his enemies he will secure the Presidency and keep it until he is driven out of office.

Senor Pon claims that his government can send 10,000 well armed men against the 20,000 with which he credits Guatemala. The latter power is said to have a large force of soldiers in Honduras, while Salvador expects to secure the aid and co-operation of Nicaragua and Costa Rica. If this is all true, the contest will be decidedly worth watching. If General Barrios of Guatemala, is contemplating the same coup by which the late President Barrios aimed to found one big republic, with himself as dictator, and which cost the latter his life, he is likely to find a hard job cut out for him. The power of one man never lasts long in Central America.

A Wonder Worker.

Mr. Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was able to get around. They pronounced his case incurable and hopeless. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds, at that time was not able to walk across the street without resting. He found, however, that he used half of a dollar bottle, that he was much better; he continued to use it and is today enjoying good health. If you have any Throat, Lung or Chest trouble try it. We guarantee satisfaction. Trial bottle free at King & Wood's Dispensary.

THE NEW SPEAKER.

Hon. W. G. Cochran, of Livingston, was designated as the Republican candidate for Speaker of the House by the Republican caucus last night. This is a great compliment to Mr. Cochran, from the fact of his being a new member. The compliment, however, is deserved, for Mr. Cochran has an excellent record in the regular session and such a one as will insure to the House a good Speaker.

The general law under which the city of Decatur is organized provides that "No city officer shall be directly or indirectly interested in any contract work or business of the city; or the sale of any article, the expense, price or consideration of which is paid from the treasury or by any assessment levied by any act or ordinance."

Admitted every direct and indirect charge made by the Review against Shockey, Alexander and Foster to be true, by comparison with the official conduct of Messrs. Shockey, Alexander and Foster since a star in a hand. Has the reformer investigated the city clerk's honesty to investigate that office? Will the Review produce up a little?

The Review says that the salary of City Clerk Betzer is only \$1,000. A Republican council was willing to pay a Democrat. Well, we presume that the other salaries to which the Review and certain reformer sidekick are not fixed by the same council and on account of that council having been, at the Review claims, Republican, reformer Betzer from blame, why does it not release the other officers and employees regardless of their politics. But the council that fixed the clerk's salary was not Republican; it was non-partisan. The present council, it was expected would be non-partisan, but the Review upon discovering that a majority of the council were Democrats announced it as being Democratic. Being Democratic it goes without saying that it is consistently devoted to reform, and we only call attention to the fact that the city clerk's office is a promising field for a reformer to enter. Let reformers improve the direct of a reformer. We still want reformer Betzer's resolution to investigate the city clerk's office.

Railroad and Warehouse Commissioners.

The Democratic party in this state has declared in favor of electing the State Board of Railroad and Warehouse Commissioners by a direct vote of the people, which on its face seems a very reasonable thing. The office was made appointive for the reason that it was supposed that a governor would be more likely to succeed in selecting men qualified for the position, and who were not directly connected with railroads, than a party convention would be.

No matter to what political party a governor may belong he feels responsible to his party, if not to the people as a whole, to make his administration honorable, and to do this he must select his subordinates with great care. In presidential years that office and the state officers and in off years the state officers absorb the attention of the party convention. Delegates as a rule do not expect to remain at the seat of the convention more than one day, and the convention is often pushed to disperse with its business, the delegates become tired and all interest is lost in nominating men to fill the lower positions.

This was noticeable in the last state convention of both parties, in designating men for Trustees of the Illinois University. Not one delegate in fifty knew anything about the men nominated. A few men who were directly interested in the men or the University, agreed upon three men and so arranged matters as to secure their nomination. This is really done in the absence of any great interest or anxiety to defeat schemes of the kind. This would be true in nominating by party state conventions persons to be voted for by Railroad and Warehouse Commissioners.

There is another danger in this state to changing the method of selecting that commission. The new appointment to this state will give Cook county between one-fourth and one-third of all the members in the legislature and the same proportion in both Democratic and Republican state conventions. Cook county is the greatest railroad center in the world and naturally has a great railroad interest. With the great aggregation of delegates from that county to conventions, which naturally has more interest in the railroads of Cook county than in the railroads of the country, would in no case out of ten, through railroad influence, cause the nomination of men friendly to railroads for commissioners. The delegates to a convention from Cook county can caucus, if they desire, on a subject of that kind; the delegates from the country, being scattered over a wide territory, cannot meet for consultation and must necessarily be weaker in a convention than those who have a better understanding with each other. In fact it is not necessary that the delegates from Cook county have any previous understanding, for they go into convention as arm with a few leaders and what those leaders say goes. This is not true of the country.

There again in every convention there are complications growing out of other nominations which unite a large part of the country with Cook county on major matters. Taking all these things together it is our opinion that it will be a sad day for the farmers and shippers of Illinois when they undertake to nominate in party convention the State Board of Railroad and Warehouse Commissioners.

A DEAD LOCK.

That is the Condition of the Illinois House of Representatives—Likely to Result in a Bad Job.

That the governor made a mistake in calling the special session of the Legislature is not at all unlikely. Before the House met the democratic papers of Cook county conceded the Republicans 79 members—two more than a quorum.

The business of the special session being in the interest of Chicago is not at all strange that the Democratic press made these concessions. When the House assembled to-day at noon and the Republicans attempted to elect their candidate for Speaker a dead-lock at once obtained. The Democrats dispute the right of Lester, McLaughlin and Wilkey to seats. This shows that the Democrats concede to the Republicans but 76 seats—one less than a quorum. Mr. Lester holds a federal office, which he has no right to hold as a member of the legislature, and in accepting the federal position he virtually relinquished his right as a member of the House.

McLaughlin has been out of the State superintending a mine in the far west and it is held that he has become a non-resident.

In the case of Wilkey a similar disability is set up.

On the whole it looks like a bad job and the best thing the Republicans can do, in our opinion, is to give the Democrats control of the House and the benefit of the responsibility which will follow.

Very Light Chaff.

It is charged that in the passage of the Electoral Commission bill Senator Morton and a few other leading Republicans opposed the bill expecting their opposition would have the effect to bring the Democrats in support of the measure.

It is generally believed that this was a ruse and had the desired effect.

The Democrats of the Senate are now actively engaged in working a similar scheme regarding the Election bill. The word has been sent out that Senator Gorman has been placed in charge of the interests of the minority in that measure and that Gorman, while he will ostensibly oppose the bill on the floor of the Senate, really desires that it shall become a law for the beneficial effect it is alleged general objection to such a measure would have in favor of the Democratic party. By these reports it is expected that certain Republican Senators will be driven from support of the bill. It remains to be seen whether there are any Republican Senatorial birds that can be caught with that kind of chaff.

A Surprise Party.

Misses Margaret Murphy and Ethel Ross arranged, and successfully carried out a surprise party on Miss Lelah Ross last evening at her home on South Main street. The affair was in honor of Miss Ross's 17th birthday and during the evening delicious refreshments were served. Those present were: Misses Mattie Foster, Let Osborne, Nellie Callahan, Flaudie Traugott, Clara Harwood, Fannie Radloff, Julia Nicholson, Annie Webb, Mabel McLenn, Jolie Carter and Ethel Ross, and Messrs. Elmer Kitch, Will Nicholson, Linn Radloff, Charles Legon, Howard Oneytt, Bob Webb, Bert Gher, Clarence Snyder, Fred Ross, Sam Kahn, Will Frederick.

Mrs. George O. Kinsman, W. R. Brosie, Charles Messer, A. R. Montgomery, John G. Stauffer, George Downing, Davis May, Misses Anna Strohm and Ella Glone, Mel Musser and Master George Downing, Jr., drove out to Hawthorn Lake yesterday and spent the day fishing and having a good time. Dinner and supper were spread under the trees.

Hold to Answer.

The preliminary examination of John B. Noce and James E. Noce, held in Justice Curtis' court last evening, on a charge of assaulting William B. Gibson, familiarly known as "Kentucky," near the tray factory on the night of July 19, and taking a small sum of money from him, terminated in the "Squire" believing the testimony of guilt sufficiently strong to warrant him in holding the defendants to answer at a September term of court. Bail was fixed at \$200 each. The brothers were returned to jail.

The evils resulting from habitual costiveness are many and serious; but the use of harsh, drastic purgatives is quite as dangerous. In Ayer's Pills, however, the patient has a mild but effective aperient, superior to all others, especially for family use.

About 500 old people were on the recent old folks' annual excursion to Salt Lake City, Utah. Four prizes were awarded. Mrs. Catherine Lynch, late of Kansas, and aunt of the Corey Bros., railway contractors of Ogden, Utah, took the first prize, a fine water set. Mrs. Lynch has relatives in Macon county, where she resided 25 years.

Thousands have been relieved of indigestion and loss of appetite by a single bottle of Ayer's Sarsaparilla. The use of this medicine, by giving tone and strength to the assimilative organs, has made it a cure of chronic dyspepsia. Price 25c. Worth \$5 a bottle.

EIGHTEEN PERSONS REPORTED KILLED

And a Great Many Others Severely Injured—Buildings Levelled and Crops Destroyed—Damaging Hail-Storm—Beneficial Rains, Etc.

Seven Persons Killed in a Cyclone.

MINNEAPOLIS, Minn., July 23.—A special to the Tribune from Fargo, N. D., says: A cyclone passed over the northern portion of this county about three o'clock yesterday. There were seven persons killed. Particulars later.

Details Still Meager.

MINNEAPOLIS, Minn., July 23.—The Tribune's special from Fargo, N. D., says: Details from the cyclone are particularly meager. The only thing thus far learned is that the storm struck Bowen, Clifford and Galesburg, about twelve miles northwest of Minn. In the southern portion of the county, in the northern part of Cass County, it was a regular cyclone, tearing and twisting across the country, leveling buildings and destroying crops. Five persons were killed outright; a man and wife were killed near Clifford. Wires on the branch line are prostrated and many of the telegraph lines are down. It is estimated that a number of miles to the telegraph station. A hail-storm also did considerable damage to crops about twelve miles south of Fargo.

The Most Remarkable Electric Storm Ever Known.

MINNEAPOLIS, Minn., July 23.—A Tribune special from Ashland, (Wis.) says: The most remarkable electric storm ever known in this section passed over Northern Wisconsin and Lake Superior County last night. It was accompanied by a terrific downpour of rain and heavy winds. Several houses, barns, out-houses, trees and fences in this city were wrecked. No one was injured. It is reported that a great many of the railroad tracks in this section were washed away and some damage was done in neighboring towns.

Two Persons Killed and Several Injured.

MINNEAPOLIS, Minn., July 23.—A special to the Tribune from Marshall, Minn., says: "Cyclone near Ghent, seven miles west of here. There were two persons killed and several injured."

A Crippling Rain.

TOPEKA, Kan., July 23.—A good rain fell in this locality and generally over the State Monday night and yesterday morning. It reached as far west as Nickerson and as far south as the Southern Kansas railway, although it was not so heavy south as here. In some places in the central portion of the State the rain was very heavy. It reached places that have been without rain for two or three weeks.

Thoroughly Drenched the Earth.

EMERY, Kan., July 23.—Nearly an inch of rain fell here yesterday morning, falling slowly and thoroughly drenching the earth. This will do an immense amount of good as much corn will be saved thereby. However, it is generally conceded that at least not over half a crop will be gathered. Nearly all early corn is beyond saving.

A Texas Rain.

SAN ANTONIO, Tex., July 23.—Rain commenced falling here yesterday morning with fair prospects of continuing throughout the night. Judging from the drift of the clouds and the reports which have been received here, the downpour has been general throughout this section of Texas. It came just in time.

A GUILTY CONSCIENCE.

Fireman Roodhouse, the Slayer of Engineer Vandewater, Talks.

TOLPEO, O., July 23.—The Commercial Appeal (C.) special says: The arrest of the murderer of Engineer Vandewater, the arrest of his fireman, Samuel Roodhouse, and his confession, has materially subsided. The report Monday night that Roodhouse had been taken to Lima to avoid the lynching mob was a mistake. Roodhouse was seen in fall yesterday by a newspaper reporter. He said that the short rest he had last night was the first since the awful tragedy of last Friday night. He said: "No one can tell the mental agony I suffered; it can not be described. I put on a bold front and had it not been for the fact that there were several men at Franklin who heard us quarrel I would not have made my confession. It was all I could do to keep from breaking down when the sheriff read the warrant for my arrest. I was not surprised, but could not muster up courage to reply for some minutes. At night I lay awake but pretended to be asleep, hoping to hear some remark which might be dropped that would give me some idea how to act. Since I have gotten the weight off my mind I rest easier. God knows it was not my intent to kill him; he forced me to it."

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surface of the system. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O.

At the latest meeting the testimony did not differ materially from Roodhouse's confession. Roodhouse will have a preliminary hearing to-day. He will waive examination and be bound over to the full term of the Court.

Sam Jones at Moberly.

MOBERLY, Mo., July 23.—Rev. Sam Jones still draws crowds of hearers each day. The large pavilion, capable of seating 4,000 is filled at ten o'clock in the morning and at three o'clock in the afternoon, and the surrounding yard is filled to overflowing at night. Nothing has ever drawn here like Jones. On the streets, at all private houses, and in business houses the talk is Sam Jones. Even Henry Newman, who once down yesterday, for the first time in his life utterly failed to draw. Large crowds are here from a distance.

FOREIGN NEWS.

NEWFOUNDLAND'S GRIEVANCES.

LONDON, July 23.—In an interview the Newfoundland Premier, Sir William Whiteway, stated that the delegates recently arriving from that province were not authorized to represent the people. They belonged to a minor party and their views could not be taken as fairly reflecting those of people at large. The Premier declared that England had been shamefully misled in regard to protecting the rights of her Newfoundland subjects. There could hardly be a doubt that looking at the matter from a purely material standpoint, Newfoundland would consult the new interest if she should join the United States. He hoped that annexation would never take place, but that an event was possible in the future, and that the Newfoundlanders who had hitherto been among the most loyal of the colonists.

GAUDAUR WINS AGAIN.

In the Most Exciting Race Ever Rowed.

WITH HANLAN'S CREW CLOSE BEHIND.

In the Great Four-Oared Professional Race at Duluth—The Open Amateur Junior Fours to be Rowed Once More.

DULUTH, Minn., July 23.—At yesterday's Duluth regatta the attendance nearly double that of the day previous. The open amateur junior fours were rowed over again by order of the regatta committee. The St. Paul crew, which was in a narrow but splendid victory for the Minneapolis, with the Duluths a close second. The St. Pauls were third and the Winnipeg played out near the finish and stopped rowing. The time was 19:30, 18:35 and 19:40. The Winnipeg double was won easily by the Minneapolis of St. Paul, 10:59; the Duluths second in 11:07; and the Winnipeg third in 11:26. The Catlin got away of their course by mistake and lost the race. The Cedar Rapids crew was not anywhere.

The great professional four-oared race was rowed with five entries, as follows: First crew—Albert Hamm, J. G. Gaudaur, John McKay and J. Ton Eyck. Second crew—George Hosmer, Hugh Wise, John Teemer, Edward Hanlan. Third crew—C. W. Roth, J. P. Roth, Geo. Wago, Cummings. Fourth crew—West Ends of Duluth. Fifth crew—Wallace Ross, picked crew.

The course was three miles with turn, and the race was the most magnificent exhibition of four-oared work ever seen in any country. The start was even, the boats leaping forward with the following stroke: Hanlan, 36; Ross, 42; Erios, 37; Gaudaur, 43; West Ends, 39. It soon became evident that the race was between the Gaudaur and Hanlan crews for first and second places, and the Erios and Ross for third money. Toward the first quarter the leaders spun, reaching there together in 4:38. Hanlan's crew slightly ahead; at the turn, in 8:33. The three-fourth stake was made by Gaudaur's four in 19:14, and Hanlan's was slightly in the rear. The finish was: Gaudaur's crew, 18:06; Hanlan's, 18:38; Erios, 18:31; Ross, 18:39; the West Ends being distanced.

If the water had been smoother after turn, all the world's records would have been beaten. Prominent spectators say the race was the most exciting ever rowed, the difference between the leaders at the finish being about three-fourths of a length.

Fatal Flames in a Tenement.

CINCINNATI, July 23.—The four-story tenement house at No. 44 East Front street was destroyed by fire at eleven o'clock last night. The fire broke out in the second story, and in this part of the building the flames were first discovered. Minors lived in the second story with his family. The fire spread rapidly and cut off the escape of Minors, his ten-year-old son, Harry, and an unknown woman, supposed to be Mrs. Minors. The bodies were recovered and taken to the morgue. Three persons were badly burned before they were rescued. Their names are: Nick Waman, Mary Kalmeyer and Eva Minors.

Suffocated in a Burning Tenement.

New York, July 23.—Fire started in the five-story tenement at No. 157 Third avenue yesterday afternoon. All the tenants except except Mrs. Mackie, aged forty, lived on the top floor. Mrs. Mackie was paralyzed and unable to help herself and was suffocated before assistance could reach her. Two firemen were overcome by smoke and were taken to the Presbyterian Hospital. The loss is about \$14,500.

The State Ticket Nominated by the Wisconsin Prohibitionists.

MADISON, Wis., July 23.—The prohibitionists have nominated Dr. Alexander, of Eau Claire, for Governor, and it is understood that he will accept the honor. For Lieutenant-Governor, W. R.
